| Priority | Description   | Type of issue         | Submitted | Submitter                    |
|----------|---|-----------------------|-----------|------------------------------|
| ▼ 460 ▲  | Selecting arbitrary regions like this isn't helpful to me as a physician. I'd prefer to have already determined areas based on demographic filters.                   | <div></div> Function  | 05/06/16  | Dr. Dave<br>Anesthesiologist |
| ▼ 421 ▲  | There isn't enough population data here! I need more than 4 patients/data points to do anything useful with.  | <div></div> Data      | 01/06/16  | Mary Lee<br>Nurse            |
| ▼ 384 ▲  | It's pretty cool that I can look at a synthesis of so much patient data, but what's not helpful is that I can't find the button that lets me look at specific cities. | <div></div> Interface | 05/06/16  | Mary Lee<br>Nurse            |
| ▼ 250 ▲  | There isn't enough population data here! I need more than 4 patients/data points to do anything useful with.  | <div></div> Data      | 01/06/16  | Mary Lee<br>Nurse            |
