Some points to consider for the allergy section based on the reference below: Patient Allergies and Electronic Health Records. (n.d.). Retrieved January 23, 2018, from https://psnet.ahrq.gov/webmm/case/405/patient-allergies-and-electronic-health-records The generic and proprietary name of the drug should be recorded, as well as the strength and formulation Description of the reaction should be recorded Adverse reaction vs allergy should be differentiated When recording the instance of the reaction, the following should be recorded: date and time of reaction, number of doses taken, number of days on the drug before onset, route of administration, which drugs or drug classes to avoid

Most drug reactions appear from within 1 - 72 hours

Jan24 has type II diabetes, hypertension, and myopia. She is currently in Jan24 Hernandez98Aj | Born 1 January 1945 (age 76) Jan24 has type II diabetes, hypertension, and myopia. She is currently in
